Dear College Township Council,

I am writing to inquire whether the Council can in any way reply to my email of May 11.

As you are aware, we have been visiting neighborhoods and churches located within College Township to collect signatures on our petition and to share the staggering research results involving risks surrounding college students and gambling, in addition to the other transparent and predictable risks that our community will face if a casino is built in the Nittany Mall.

The overwhelming response we are receiving from our door to door, in person visits to College Township residents and places of worship involves the question: Why were we not consulted when College Township moved forward with this approval? Why was this not placed on a ballot to survey residents' viewpoints on this very potentially destructive enterprise to our community?

We have a local election coming up as soon as tomorrow.

Can you let us know why no community input was sought by the Council?

We are redoubling our efforts and labor in speaking with more and more College Township neighbors, and we will continue to report their strong and vehement opposition to this enterprise both to the PGCB and to the Township.

We do ask that the Council seriously and thoughtfully consider the views of College Township residents.

Sincerely,
Susan Strauss

Dear Members of the College Township Council,

Citizens who would be negatively impacted by the proposed casino at the Nittany Mall are currently circulating an [online petition](#) and a hard-copy petition requesting that the Pennsylvania Gaming Control Board (PGCB) deny the license for this proposed casino, and we are seeing that the community opposes the casino at a rate of approximately 9 to 1. As of last Friday morning (5/13/2022), the online petition had collected 1,021 signatures and the hard-copy petition had collected 792 signatures. Only 69 of these signatures are duplicates (e.g. when someone has signed both the online petition and the hard-copy petition, or when someone has signed one of the petitions more than one time), so **the two petitions together included signatures from 1,744 distinct people who are opposed to this proposed casino** as of 5/13/2022.

A total of 354 of these signatures are from residents of College Township. This comprises approximately 3.3% of the entire [population of the Township in 2020](#), 19% of the total votes cast for the most winning candidate in the [2021 elections for the College Township Council](#), and 56% of the spread between the most winning candidate and the losing candidate in that election.

The hard-copy petition has been collecting signatures principally in the communities located within a 15-minute drive of the Nittany Mall, although some of the signatures on this petition are from people who live farther away and commute into the communities that would be affected by the proposed casino on a regular basis. Similarly, the online petition has received signatures principally from people who live in the communities that would be affected by the proposed casino, but it has also received some signatures from Penn State alumni and others who periodically travel into the communities that would be impacted, and also some additional signatures from people who have relatives who would be impacted (e.g. parents of Penn State students). Essentially all of the signatures on both of these petitions are from people who will be directly or indirectly harmed by the proposed casino. Most petition signatories have provided their contact information along with their signature, and these individuals can be contacted directly to verify the way in which the proposed casino would impact them should this be necessary.

Additionally, the online petition provides a tool for respondents to submit comments regarding the proposed casino, and 414 of the online petition signatories have chosen to provide additional comments as public feedback regarding the casino as of 5/13/2022. A document containing the publicly posted comments is attached for your review. Some of the comments in the attached document are listed as being from "Anonymous" petition signatories because these individuals chose not to publicly disclose their identity on the petition website, but the names and contact information for the people who wrote these comments are included in the raw data for the petitions themselves, and the overwhelming majority of these comments are from people in our community.

In an effort to protect the privacy and personal information of the petition signatories, I have attached a PDF file containing a list of the publicly displayed comments from the online petition website without the anonymous posters' names, two PDF files containing lists of the names of the people who signed each petition, and also a PDF file of a Microsoft Excel worksheet that was used to identify which people have signed the petition(s) more than one time. I request that you review these documents and consider them when evaluating College Township's future plans regarding the proposed casino at the Nittany Mall. These PDF files do not contain the contact information for the people who have signed the petition, so they are therefore suitable for posting online in College Township's meeting minutes.

The full versions of these documents that contain the contact information for the petition signatories have been submitted to the PGCB and will be vetted by that organization. I can also share a copy of these documents with the College Township Council if this is desired and if the College Township Council will agree not to publicly disclose the contact information of the petition signatories. (Posting the full versions of these documents online with the contact information redacted would be acceptable.)

Most of our community does not understand why the College Township Council has decided to move forward with the development of this proposed casino without first seeking broader community input, and we are dismayed that College Township's leadership has decided to unilaterally move forward with the development of this casino when all of the surrounding municipalities in our area have rejected the idea of hosting a casino out of hand. Nothing in our region happens in a vacuum, and the College Township Council ought to consider the feedback of the community as a whole when evaluating such a weighty decision -- particularly when the casino is planned to be built just 4 miles away from the 48,000 students at Penn State University and students have been shown to have gambling addiction rates that are [6x higher than the general adult population](#).

There is still time for the College Township Council to reconsider its position regarding the proposed casino and to reverse course on this ill-considered development, and it is within the Council's power to stop the development of this casino should it choose to do so. At the very least, the College Township Council should send an e-mail to the PGCB at boardclerk@pa.gov indicating the strong degree of community opposition that the casino has generated and asking the PGCB to deny the proposed casino's license.

We will continue to rally further opposition to the proposed casino until it has been stopped. We would rather work with the leadership of the College Township Council to protect our community by accomplishing this goal, but we can also work through the electoral process to replace the current College Township leadership with new representatives who are actually responsive to the needs of their community if this proves to be necessary.

Please let me know if you would like any further information regarding the attached petition documents. I will plan to continue sending updates on the petitions to the College Township Council as additional community feedback opposing the casino is submitted to the PGCB.

Thank you.

Sincerely,

Andrew Shaffer

I am the parent of two PSU grads one of whom is raising 4 children in State College. I do not want my grandchildren raise in a community where addictions - to gambling, drugs, sex , etc. is normative. This is what happened in Atlantic City and many other communities where casinos are located. Furthermore organized crime always arrives and corrupts local, county and state politics to it's advantage. If you want to ruin the
Lives of students of 10,000 students/ year who come to state College to get an education and then send them forth to become leaders and decision makers in t towns and cities throughout Pennsylvania, the region, nation and the world for the sake of short term gain, the you are cools and you will spread your disease to others. Please, don't invite these parasites into your community and ruin the good name of Penn State world-wide

As a local behavioral health provider, I have concerns about a casino being put in a town where so many families live. According to addictioncenter.com, it is estimated that around 2 million people in the US are addicted to gambling and that for as many as 20 million people, the habit seriously interferes with work and social life. This site also points out the social detriment gambling is to society. Squandered paychecks are spent in hopes of that elusive payout while their families depend on government assistance. Broken marriages are caused by financial strain forcing the single parent into low-wage employment to make up for the gambled money. Gambling addiction sucks the productivity from the potential employee who would be paying taxes into the system. The gambling addict also has more health issues leading to more medical costs.

Just a cursory internet search comes up with many gambling addiction help and recovery resources or credible sources showing the negative social effects.

https://www.icrg.org/sites/default/files/oec/pdfs/ncrg_fact_sheet_gambling_disorders.pdf

<https://www.baylor.edu/content/services/document.php/144584.pdf>

So when you think of all the revenue and jobs that will be created, think of the hungry kids and the single parent who is forced to get a job to make up for the lost income b/c of missing or nonexistent child support. Who really hits the jackpot in these situations - not the family or society as a whole? It's a vicious cycle and the long-term damage will cost way more than the surface short-term benefits.

When I moved to College Township, PA in 1970, I could never have dreamed that I would one day have to sign a petition to stop a casino from opening in my peaceful university community. A casino is not a proper fit for my neighborhood or the State College Area at large. The quality of life here is excellent for the most part, although greedy investors and developers are doing everything they can to lessen and destroy it. Developers from Chicago and elsewhere are building high-rise structures on many street corners of State College whether the community needs them or not. Developers and investors are eyeing areas around State College, including College Township. The proposed casino is just one example. Never mind that most of the people who will regularly frequent such an establishment will be the ones who can least afford to do so.

Gambling (or gaming as it's delicately called now) can often become like any other addiction. You think it will never affect you or your loved ones, but I bear witness that it can. I have a loved one with a serious addiction, and it has destroyed her life and perilously impacted her family. I would not wish this fate on anyone. I don't understand why a community such as ours with all it has to offer would want a casino with all it brings. There is more to life than money, although the movers and shakers who will benefit monetarily from a casino at Nittany Mall might not think so. Malls all over America are dying. It is just a sign of our times. The Internet is rife with clever and meaningful ways that malls have been repurposed to benefit the communities and residents where they are located. Surely a university community such as ours could do the same.

After the novelty and newness of a casino in our midst wears thin, do the majority of residents here want to deal with the aftermath? Sure, College Township officials will have a few more dollars to spend and probably mismanage to some degree. But will residents see their taxes decrease? I doubt it. Will casino-based "tourism" truly benefit the community? I doubt that too. If even one child is left alone at risk to harm or predators at Nittany Mall, in a car in the Mall parking lot, or inside a local motel or hotel, would a casino be worth the risk? I don't think so. Would parents of Penn State students want their children to gamble big-time or become addicted to gambling while in the care of the University, its administrators, and esteemed trustees? I seriously doubt that too. Why would any university, in this case a major, respected land-grant one, want that legacy for its students and community?

Just look on the Internet and around you. Do you really want a casino here? I know it's easier and more convenient to not speak out, to remain anonymous, and to let a few wealthy and well-placed individuals decide our community fate and what they declare is in our best interests, but I hope we will not do that here. I do not want a casino in my neighborhood, and I don't think you do either.

Gambling helps unlucky, desperate, and vulnerable people to destroy themselves. Some have apparent accepted the trade-off of big money for vanishingly few, some service jobs, a little tax revenue, & the house winning for out-of-town owners now for participation in long-term social crises. There's a reason Ferguson Township didn't accept the enabling legislation. We didn't want to aid & abet decay & destruction.

This is a foolish idea. People are not going to come here for a day, or a mini-vacation it is in the middle of agricultural communities without the attractions of even a small city.

It will attract those who are already addicted to gambling itself; and it has the potential to encourage the development of that particular disease in the nearby University population.

Most of all it is NOT an income producer for the community, there will be no money spent that will remain here in the Township or the County.

This is bad public planning and we hope the Control Board will deny this license request.

A casino would bring many problems to our area and is not the development we need in Centre County.

Here are some points to consider: The new American casino is primarily a facility filled with modern slot machines.

A modern slot machine is a sophisticated computer, engineered to create fast, continuous, and repeat betting.

Modern slot machines are carefully designed to ensure that the longer you play, the more you lose.

Modern slot machines are highly addictive.

Modern slot machines are engineered to make players lose track of time and money. Casinos depend on problem gamblers for their revenue base.

Living close to a casino increases the chance of becoming a problem gambler.

Problem gambling is more widespread than many casino industry leaders claim.

Problem gambling affects families and communities as well as individuals.

Young people are viewed as the future of casino gambling.

Working in a casino appears to increase workers' chances of having gambling problems.

It's common practice that casinos don't have clocks or windows so people are unaware of how long they have been gambling and so they (and what's left of their money) stay in the casino.

Let's be creative Also some say casinos bring higher suicide rates, are bad for compulsive gamblers or those with that personality trait, an increase in personal bankruptcies, the breakup of some families. I am not sure if it will affect our home property values but in some areas it does. A CNN report said, "Casinos do not revive local economies. They act as parasites upon them. Communities located within 10 miles of a casino exhibit double the rate of problem gambling. Unsurprisingly, such communities also suffer higher rates of home foreclosure and other forms of economic distress and domestic violence." Our community is deserving of positivity, health, and a lasting impact that will bring GOOD to the area. A casino is a poor excuse to prey on those who have little and are hoping for more, who will ultimately hurt themselves and develop bigger problems. How about a homeless shelter? The list of positive possibilities are endless, don't sully our community with more greed.

The community will incur the high costs of all the socio-economic factors associated with gambling: addictions of all kinds; family break up and the inducement of our students to get on (more) addiction pathways here in the community. Our sleepy valley isn't a Vegas strip or a boardwalk kind of town and we want to keep it this way. It is a great place to raise kids, to grow up and grow old Just as it is. NOTHING good can ever result from a casino. History has proven that it is not good for society. Not ONE example can be given where people's lives have not been ruined by the lure of fast and easy money and the burden it places upon a community with the increase in all the social ills that result from it being in a community. It is reprehensible that the State would approve and even be part of the destruction of people's lives and downfall of communities. The only reason the State wants any part of gambling is because of its own covetousness as manifested by its insatiable

quest of money regardless if it is ill-gotten or not to then waste in one way or another with social experimentation on projects of elitists.

God hating pagans may reject the prohibitions in Scripture of gambling. The problem with their worldview is they have no standard of measuring good or evil apart from their own existential experience or where tyranny by the majority makes that determination. Practical effects of rejection of God's laws have an effect in this life as well as the next and nobody escapes judgment on the great day.

Don't kid yourself, gambling is sin because it is not being a good steward of what God has provided you and the quality of life is diminished (6th commandment).

There is no "win-win" situation because the transaction is not equitable.

Casinos are not in business as a "non-profit" and even if they were, we know already about how the so-called "non-profit" scams and schemes work to "employ" via cronyism and nepotism filling the coffers one another in perpetuity. Rest assured that anyone who has any role or responsibility in the determination of this casino will face KING Jesus and His wrath if they are reprobate.

Ephesians 5:6

Let no one deceive you with empty words, for because of these things the wrath of God comes upon the sons of disobedience.

Romans 2:5

But because of your stubbornness and unrepentant heart you are storing up wrath for yourself in the day of wrath and revelation of the righteous judgment of God

I am opposed to the casino at Nittany Mall because of the negative impact on property values. In addition, a casino is not consistent with our community- based values. It is an extractive industry and the toll is too high.

My two cents, I went to college at Lehigh University before Sands casino came into town. My college experience was good and relatively safe in south Bethlehem, while I was at school there, but the student president had a gambling addiction which he keep concealed, he lost a ton of money, and was desperate to pay it off, he ended up robbing a bank in town in attempt to pay off his gambling debt, and was caught and arrested. To say the least his gambling addiction had a negative impact on his life and the school's image. I feel adding the convenience of a casino in town would only amplify the dangers of gambling addictions in our town of State College. I went to the casino site near Lehigh later and the adjacent steel stacks park as part of American planning association meeting, and saw the steel stacks high line and beautiful art and music venue campus renovated from an old Bethlehem steel factory... the city of Bethlehem and Artsfest, nonprofit organization, negotiated with casino before they moved into town to pay for the steel stacks music and arts campus development which was a plus. However, when we went to visit the steel stacks with my family later to show them, we witnessed a scene between local law enforcement and some elderly Chinese immigrants from NYC who did not speak English, and who were apparently living at the steel stacks site in large number. We asked the police office why he was trying to get them to leave the park, and he said organized crime in NYC was busing immigrants to the casino, because the casino offered a free meal and a gambling voucher, he said the organized crime group would pay for a one way bus ticket for recent immigrant, in exchange for the gambling voucher, with no ride back after they received their free meal, so he said this was contributing to the rising homeless rate in Bethlehem after the casino opened, and they found several dead homeless under the bridges, it was really sad to hear all this. We welcome diversity in our town and welcome people of all walks of life, but we also have to be aware of some of the social issues that could arise in our town after the casino opens. I also lived next to Atlantic City NJ for part of undergrad, and my neighbors worked at the casino or in association with it, not saying everyone who works at a casino fits this profile but one was a stripper, the other a crack addict and the third a recent convict. The casino industry attracts a certain type of person, and also takes advantage of people who have gambling addictions and are desperate for money, people who really should not be encouraged to gamble their life saving away. I am not in favor of having a casino in our community.

I live in College Township and am adamantly opposed to this casino for many reasons, including but not limited to: This is a university town with more than 40,000 students enrolled at PSU, a casino will constitute a major risk to the student body with regard to gambling activity and addiction (PSU videos feature President Barron himself discussing these issues with experts), it will not serve the needs of our broader community (State College and PSU) as a whole, the Nittany Mall can/should be repurposed to better serve the wellbeing of our community, the only winners here are the real estate developers and the state (who will also benefit immensely from the revenues generated from gambling)...

There are far better ways to bring revenue to State College and College Township.

We need to get the word out to PSU parents, PSU alumni, and our local residents (many of whom are not aware that a casino has even been proposed to occupy the space of the former Macy's).

College Township residents who are not in favor of this casino: We are counting on your to express your concerns as well.

Please don't think for even one moment the original developers will manage that 24/7 joy indefinitely. It'll be sold to another casino corporation faster than you might ever imagine. If this proposed casino license is approved in Harrisburg, the folks who have already locked in Penn State's invisible pledge of allegiance will be doing high-fives while laughing all the way to the bank. Don't wait for an eloquent list describing the casino chaos that finally meet your expectations. Don't wait until the casino's ribbon-cutting at their

I strongly oppose a casino in our area. What a horrible thing for a college town.

We are now a desirable location and a casino would detract from our college town, family friendly charm. We have University sports, high school sport competitions, theatre, music and other events that attract many. Visitors and tourists feel that we are a safe environment.

Students and others are known to be vulnerable to gambling addiction and sports betting is already out of hand

Gambling will pull "entertainment" dollars from local business and University activities; big negatives to consider.

Would this attract "loan sharks" and those pay-day lending places as some over extend their finances? Have any of you seen the undesirable surroundings of some other casinos? I have traveled quite a bit and have seen some pathetic little casinos surrounded by undesirable shops.

This plan isn't a high end Las Vegas type setting.

Why on earth would this community allow this sort of thing here? I cannot think of a single thing except the power of the greedy developer owners.....

I oppose a Casino in the Nittany Mall in Centre County, both for the potentially negative property value consequences as well as the negative societal issues these types of facilities ultimately create.

Nothing good could come from having a casino approved for our community. I only see destruction, more crime, and tragic outcomes.

This area already has MANY types of amusements and other forms of leisure activities. We DO NOT NEED a casino! In fact, casinos ALWAYS create social problems that the community at large ends up having to pay for. NO CASINO FOR CENTRE COUNTY!!! It would bring only GRIEF in the long run!

Please do not put a casino in Centre county. Gambling and lotteries are attractive to governments as an alternate form of raising revenue without officially raising taxes, but they often end up disproportionately 'taxing' lower-income citizens. In addition to being a regressive tax on the poor, they bring many other undesirable consequences to communities.

It is unconscionable that a casino is attempting to pollute Happy Valley, 3.1 miles away from Penn State's flagship campus! Is nothing sacred? Say NO APPROVAL for its license, by the Pa Gaming Control Board!!

My son is a gambling addict because there was a casino too close to where we lived up when he was in college. I don't want any other family to have to go through this.

I'm strongly opposed to permitting the proposed mini casino in the Nittany Mall in Centre County.

Mini casinos do not offer the big star entertainment, restaurants, hotels, glitz, etc. that large casinos offer; therefore they are not entertainment destinations, and do not pull a large number of outsiders into the community to spend their \$.

Instead, they become a depository for local gamblers to drop their hard earned \$, often resulting in stress on their personal, emotional, mental, financial, and family situations.

They also attract unsavory legal and illegal businesses . . . pawn shops, payday loans, petty theft, prostitution, drugs, etc. I spent many years working at a plant in northern Idaho and could see the demise in the character of a region resulting from the introduction of a mini-casino.

The Centre region provides a unique and enjoyable locale to live, to raise a family, and to work; as well as a destination for many alumni, sports enthusiasts, and others who are attracted to the many special activities that this extraordinary region provides.

Permitting this mini-casino will be the start of an insidious infection which will gradually deteriorate the health and character of our sacred region. It will be the entry point onto a slippery slope which will lead to significant emotional and financial strain on those individuals and families who succumb to its destructive temptation; and open the door to unsavory legal and illegal business activity that will spoil this region's special character that we all enjoy.

One does not need to be addicted to lose a lot of money in a casino. It will not bring any benefits to the citizens of this county.

We are State College, We are College township ... Neither of these are consistent with promoting casino development . Take this bad business elsewhere. What follows these openings is undesirable. This is not progress, this is not positive, this is the opposite of family oriented values we support and promote.

Having lived in New York for 40+ years before moving to Bellefonte, I have observed the "rise" of the Native People's casinos. I understand that there are some jobs created, but no net gain in living conditions around the Casinos. Hence, I am not in favor of one in this area.

I believe a casino will draw money away from Centre County. People have limited funds to spend, and it would be better for that money to go towards supporting local businesses. I believe a casino would also be dangerous for college students. There is already a large problem in the area because of the excessive drinking done by students. I would not want to see gambling addictions added to those problems.

For the safety of our children, youth and community do not allow a casino in Centre County. No dollars can buy back the wasted lives that are lost in gambling and debt that follow this hopeless form of entertainment that results in more homelessness and suicide in communities.

Discretionary spending in Central Pennsylvania is limited, and a casino would compete with our area's existing businesses both for local customers' spending and also for employees - redirecting our community's resources away from productive economic activity into wasteful spending on addictive forms of entertainment. By reducing the amount of money available for non-casino spending and increasing the cost of labor in our region, the casino would gradually drive some of the existing companies in our region out of business. This would deprive our area's residents of the goods and services that these existing businesses already provide. The proposed casino would not attract significant numbers of tourists or significant amounts of tourism income from other nearby cities to offset these losses – those cities already have larger casinos of their own, and casino patrons' choices about where to gamble are driven primarily by locality and convenience. Furthermore, tourists from farther away would have to travel past those larger casinos to get here, and few people are going to travel hundreds of miles from out of state to gamble at a mini-casino in the Nittany Mall. Instead, a casino would siphon tens of millions of dollars out of our local community each year and cause significant numbers of Penn State college students to become addicted to gambling.

If a casino is developed at the Nittany Mall, it will blight College Township and the other nearby municipalities, leading to increased gambling addiction, poverty, and crime. These costs will be borne not only by the customers of the casino who choose to gamble, but also by numerous other people who never gamble themselves but who nevertheless depend upon those who will become addicted to gambling at the casino – including their children, spouses, neighbors, employers, and co-workers. All of these who depend upon each person who becomes addicted to gambling at the casino will be negatively impacted when these people “choose” to gamble away their entire paycheck or social security check each month because their addiction has caused them to forget that anything else matters.

I strongly oppose the development of a casino at the Nittany Mall, and I am proud to stand up for the health and well-being of our community with Kristen and the others who are signing this petition. I call on the Pennsylvania Gaming Control Board to recognize that the gambling market in Pennsylvania is already saturated, that the proposed casino will not accomplish the Board's goal of attracting additional tourists from other states into Pennsylvania, and that the local community is overwhelmingly opposed to the development of this casino. Please respect our wishes and deny the license for the proposed casino at the Nittany Mall!

This document contains information for those who have signed the hard copy petition opposing the proposed Nittany Mall Casino as of 5/13/2022.

"We, the undersigned, do not want a casino in our community. We hereby request that the Pennsylvania Gaming Control Board deny the license for the proposed casino at the Nittany Mall."
